Sustainable Redevelopment in the Ohio River Valley

Program-At-A-Glance

October 1-3, 2007

The Brown Hotel

Louisville, KY

Sustainable Redevelopment can lead to long-term benefits to the environment, public health, and the quality of life of the surrounding community.

October 1, 2007

1:00 Half Day Tour of Louisville area
Sustainable projects and charrette sites (\$50 fee)

5:30 Walking Tour
(free for conference participants)

October 2, 2007

8:00 Registration and Coffee

Plenary Sessions –

8:30 Welcome

9:00 Keynote Presentations
Inspirational talks set the stage for the conference: the value of redevelopment and infill, protecting and restoring natural systems through redevelopment, and using redevelopment approaches to create better community outcomes.

Breakout Sessions –

11:00 Case Studies of Sustainable Redevelopment:
Learn about on the ground examples of Sustainable Redevelopment projects at cleanup sites. Depending on your interests or community size, you'll be able to hear from Urban, Small Town, and Rural Perspectives.

12:05 Lunch Provided and Guest Speaker

Breakout Sessions Continued –

1:10 Collaboration for Better Results
Panels Titles: Cross Border Collaboration: Spanning the OH River for Sustainable Redevelopment; Integrative Design and Green Engineering; Urban Approaches to Sustainable Redevelopment: Analysis of the Park Hill Corridor in Louisville, KY; and Small Town Approach to Sustainable Redevelopment: The Story of Stella, MO

2:30 Concurrent Breakout Panels
Explore How Sustainable Redevelopment Can Create a Positive Impact on: Air Quality, Urban Heat Island Effect and Climate Change, Watershed Protection, Habitat and Ecosystem Function; Public Health; Storm Water Management; Disadvantaged Communities; and Livability

5:15 Adjourn

October 3, 2007

7:30 Coffee and Networking

8:00 Welcome and Update on Partnerships

Plenary Session –

8:15 Introduction to the Charrette
Charrette concept and expectations for the day; exploration of the tools and techniques that can be used to sustainably redevelop a site, emphasizing integrative design.

9:10 Charrette Exercise
Attendees can choose from 3-4 brownfield sites that represent a range of conditions and types of sites that are commonly found in urban, small town and rural communities across the country.

11:45 Report-out from Charettes

12:30 Lunch Provided and Demonstration of SMARTe Tool

Plenary Sessions –

1:30 Overcoming Barriers to Sustainable Development At Cleanup Sites
Approaches for overcoming political, public perception, and information barriers.

2:15 Tools to Assist Communities
Discussion of model codes and ordinances, resources, and grants. Examples of local incentives to encourage green development.

3:15 The Economics of Sustainable Development Practices
The economic impact of brownfield redevelopment, discussion of financing tools available, and resources for funding your project.

4:30 Adjourn

1:30 – 5:15 Special Session: General Public is Invited
Public Health Roundtable – Review of the forthcoming Public Health and Brownfields Community Guidebook
